PROJECT PLANNING PHASE

MILESTONE & ACTIVITY LIST

DATE	21 October 2022
TEAM ID	PNT2022TMID41545
PROJECT NAME	CLASSIFICATION OF ARRHYTHMIA BY USING DEEP LEARNING WITH 2-D ECG SPECTRAL IMAGE REPRESENTATION

Milestone:

Modern Technology are increasing and optimizing the Performance of the Artificial Intelligences (AI) Model. To build a model which is used for classification of arrhythima depends on the different characteristics like wave , signal, heart beat etc. Here the user can capture the images of different ECG signals and then the image will be sent the trained model. The model analyses the image and detect the based on the like (dataset, sticky sensor, Heart problems, etc.).

Activity List:

In Project Management Planning is an Important task to scheduling the phrase of the project to the Team Member. In this Activity can shows the various activity are allocated and Done by the Team Members! In Project we can Split into the Four Step of Phrases are

Phrase 1: Information Collection and Requirement Analysis.
Phrase 2: Project Planning and Developing Modules.
Phrase 3: Implementing the High Accuracy Deep Learning Algorithm to Perform.
Phrase 4: Deploying the Model on Cloud and Testing the Model and UI Performance
